

DECLARATION OF PERFORMANCE

N° 03/2013

In accordance with CPR 305/2011

*1. Declared performance of **Derryclare Sandstone***

2. :

<i>Essential features</i>	<i>Performance</i>	<i>Harmonized specifications</i>
Release of dangerous substances	NPD	EN 1341:2013, EN 1342:2013, EN 1343:2013.
Flexural strength	expected minimum value	17,2 MPa
Durability of flexural strength	average value before frost	16,8 MPa
	average value after 56 frost cycles	17,5 MPa
Aparent density	average value	2779 kg/mc
Abrasion wear	expected maximum value	14,8 mm
Water absorption at p.at.	expected maximum value	1,20%
Compressive strenght	Expected minimum value	122 Mpa
Durability of compressive strenght	average value before frost	138 Mpa
	average value after 56 frost cycles	143 Mpa

Signed :

Tom Wilson.

Managing Director.
