

Natural Stone, Beautiful Home

Natural Stone for your Home

Stonework is timeless and will connect your home with its natural surroundings

www.thinstoneireland.ie

What is ThinStone?

Here at our stone yard in Westport, County Mayo we cut away the face from each piece of heavy stone to make **ThinStone**.

This is 100% natural stone, but now with a thickness of only one inch. This can then be fixed on directly to the wall like a heavy tile.

This direct fixing method and the lighter weight gives **ThinStone** many advantages and cost savings as against using heavy building stone with eight inch thickness.

ThinStone

Corner stones

How it Works

NEW BUILD

RETROFIT PROJECT

Advantages

- Fixes on directly - so no support or wider foundations needed.
- More design flexibility on corner windows, bay windows, arches etc.
- Simplifies the details needed for the build.
- **Works easily with ICF or external insulation.**
- More light in rooms as less depth of stone around windows.
- Perfect for retrofits, extensions or internal feature walls.
- Available in a range of limestone or sandstone.
- **Supply and fit services nationwide.**

Ideal For

Housing Developments

Garden Walls

Porches and Sunrooms

Housefronts

Stone Types

P = Pointed

DB = Dry Build

Kilkenny Limestone (P)

Creggaun Sandstone (DB)

Donegal Sandstone (P)

White Limestone (P)

Creggaun Sandstone (P)

Glenmore Limestone (P)

Carraig Sandstone (P)

Errisbeg Sandstone (DB)

Glenmore Limestone (DB)

Stone is a natural material, so variations in colour and texture are part of its unique beauty.

Technical Specifications

Stone Specifications

Stone	Type	Thickness	Wt/sqm	Colour	Appearance	Absorption	Density
Creggaun	Sandstone	15-20 mm	33 kg	Beige / Light Brown	Rectangular	1.9 %	2.7
Carraig	Sandstone	25-30 mm	60 kg	Light brown / Light Grey	Random	1.8 %	2.6
Benbrack	Sandstone	25-30 mm	60 kg	Beige / Brown / Grey	Random	1.5 %	2.7
Errisbeg	Sandstone	15-20 mm	33 kg	Brown / Grey	Rectangular	1.9 %	2.6
Kilkenny	Limestone	25-30 mm	60 kg	Blue / Grey	Rectangular	0.11 %	2.7
Glenmore	Limestone	15-20 mm	34 kg	Blue / Grey	Rectangular	0.09 %	2.6
Donegal	Sandstone	25-30 mm	60 kg	Beige	Random	1.9 %	2.5

Adhesive Specifications

Manufactured as a dry mix of high quality cement binder, aggregates and special composition of modifiers.

- CE certified - CE 767 1614
- Initial bonding, i.e. > 1.5 N/mm² OR 1,500 Kgs/m²
- Adhesive classification: C2TES1

LightStone for External Insulation or ICF Builds

What is LightStone?

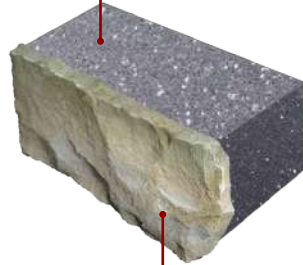

LightStone is 100% natural stone cut down to a thickness of 15mm (a half inch approx). It is thus very lightweight and can fix on directly like a tile of natural stone.

So, it gives the same great stonework finish as traditional building stone but without the weight of the bulk.

LightStone is fixed directly to the base coat for ICF builds or those with external insulation.

For modular buildings or timber frame buildings, LightStone fixes directly to sheets of cement board.

Thermal Insulation

Stone

Where can LightStone be used?

LightStone was developed for bonding directly to:

- External insulation
- ICF builds
- Modular buildings
- Timber frame buildings

Advantages:

- 100% natural Limestone/Sandstone
- 10-year stonework guarantee
- One stop shop... supply and fit stone
- Ex stock in 32 counties
- Quick and easy installation
- No stone waste or chippings
- Tidy pallet delivery of 28 sq. metres

Guide Pricing and Lead Times

Pricing including all materials and stonemason's labour

Housefronts

€5,500 - €7,000

/approx/

incl. stone, adhesive, mortar and labour

This depends on the total area and also on the number of windows and corners.

TURNAROUND TIME

**One week to
one and a half weeks**

Porches

€2,200 - €2,900

/approx/

incl. stone, adhesive, mortar and labour

Everything included – labour,
stone and clean-up.

TURNAROUND TIME

Three days

Fireplaces

€2,200 - €2,900

/approx/

incl. stone, adhesive, mortar and labour

Price includes mantle, stone as required,
installation, stone sealing and clean up.

TURNAROUND TIME

Two days

Smaller projects, such as stonework behind a stove,
can often be completed in **one day**.

Walls

€5,000 - €6,500

/approx/

incl. stone, adhesive, mortar and labour

Based on a 30 metre wall that's 1m high.
Price includes labour, stone and clean up.

TURNAROUND TIME

One week
